

# SSCC DISPATCHES

THE SIXTH SCALE COLLECTORS CLUB NEWSLETTER

## COMBAT! Patrol

Point Man's latest comic is now available on the Dispatches Message Board;

[ssccdspatches.yuku.com](http://ssccdspatches.yuku.com)

You'll find the 8 page comic in the "Communications Shack" section of the board. The comic is the first of the series and gives you a little introduction to the squad. Figures used in the comic are Dragon and most of the gear and uniforms are Dragon with a little BBI and Newline thrown in for good measure. It is Point Man's first WWII comic since his Haunted M5 series about 10 years ago.

### AUGUST MEETING

It was a great meeting night. There was plenty of eye candy and a good crowd of folks. Got some pictures for you .

# A look at the AUGUST CLUB MEETING

The August meeting was a great meet. We had a good number of folks and some great discussion about Ft. Thomas. An updated floor plan will be provided to all soon. There was some great eye candy as well. Panzercommander's beautiful Pak 36 gun and crew, Hammer's Six's new Panther tank, Point Man's cast from his newest comic; Combat! Patrol, Tim's Sci Fi

figures and Dr. Zorkon's continuing vampire themed dioramas. There was a lot to see. The Panther is featured on the next page of this newsletter if you are anxious to see a few more shots. We had two new members join us at the meeting and from all of us at the SSCC, a hearty welcome to JKidd and son. Hope to see all at our September meeting (2nd Wednesday).

# PANTHER

Ausf G

Hammer Six's Panther G was built from a Plastic Panzer's kit. New Styrene road wheels replaced the original cast ones and there were a few other aftermarket castings employed as well, but a majority of the details are made from scrap styrene, wood and brass. The extra links were cast with Alumilite as no extra Panther track were available to finish the vehicle. The vehicle is finished in an Ambush scheme.

# DAK Project

The Afrika Korps and the war in North Africa have always been of great interest to me...

...unfortunately, I didn't buy any of the first Dragon DAK figures and what is coming out now is a little more money than I want to pay for a figure. However I was able to pick up a couple of loose Afrika Korps figures at the Columbus WOHs show and my good friend MadDog Corporal helped me out with a couple of uniforms, allowing me to complete the four figures that you see above and on the right. Four infantry figures is hardly a squad, but it is good number of figures for sitting on the back of this;

Meet my new Panzerwerks Panzer III. I just picked this baby up and will be finishing it to go with my DAK troops. Inset into the picture are a couple of work in progress tankers for the tank. I am pretty excited about this project because the Panzer III is my absolute favorite tank of WWII and with that short 75, it just has a mean and deadly look about it.
